

24th - 26th October 2013

Bombay Exhibition Centre, Mumbai, India

Post Show Report

Fire India & Safetyex exhibition was held at the Bombay Exhibition Centre, in Mumbai between 24th to 26th October 2013 and it was a resounding success. It was truly a most comprehensive and mammoth representation of the entire fire and safety industry and helped to bring together all relevant stakeholders like manufacturers, suppliers, traders, academicians, industry professionals and industry leaders, under one roof.

The events were truly unique, as they had many add on features which were not only unique in terms of their content but also provided value additions. Some of them were conferences, buyer-seller meets, open display area, safety theatre and product showcase theatre which made it a truly interactive forum. The exhibition attracted over 200 exhibitors from 23 countries across the globe and all the latest products/technologies were on display.

There were two independent conferences held alongside the exhibition. The Institution Of Fire Engineers (India) had organized a three days conference whose central theme was “Fire Risk Mitigation – The Global Trends”.

The Safety Appliances Manufacturers Association (SAMA) had also organized a focused one day conference whose theme was – Building Together A Safe Future.

Glimpses From The Event

The Institution Of Fire Engineers (IFE) conducted a three day international conference, which was an integral part of the Fire India & Safetyex 2013 exhibition. This mega event was a rendezvous for manufacturers, specialists & technocrats. Key issues of interest were deliberated upon & addressed to ensure technical development & spread of knowledge as also exchange of views based on field experiences.

The theme of the conference was “Fire Risk Mitigation: The Global Trends”. Around **500 delegates** participated in this event which saw **more than 46 technical papers** being presented by a wide cross section of industrial experts. Some of the themes covered were active and passive structural fire safety, industrial fire safety management, ground operations and strategies and the developments in fire engineering and technologies.

The much awaited industry event was back with focused business opportunities that allowed enhanced business space to the fire manufacturers, both in India and globally. **The event was inaugurated by Mr M.Shashidhar Reddy, Vice Chairman, NDMA.**

Theme :- Building Together A Safe Future

This one day conference was inaugurated by Shri V.B.Sant, Director General, National Safety Council and the Guest Of Honour was Shri J.M. Motghare of Directorate Of Industrial Safety & Health, Government Of Maharashtra.

In his inaugural address, Shri Sant talked about adopting a new culture of safety and mentioned that safety would soon become a very important differentiator for the customer to choose a product or technology. The other two important differentiators being quality and price. He further added that companies are already integrating safety in their product offerings.

The conference saw many important papers being presented which included topics like systematic approach towards safety & health, HSE : new legislative provisions, roles and responsibilities of statutory authorities etc.

Testimonials

A lot of relevant customers have come to our exhibition. This is an excellent show.
Mr Alan Locke, Head Sales, Fike Safety Technology.

This year's show has been the best. The turnout has been very large and we are very happy.
Mr S.M.Prabhakar, CEO, Unicare Fire Safety India Pvt Ltd.
